

A better way to treat a door.™

Your entry should reflect  
your personal style.  
That's why, at ODL,  
we create so many styles  
in doorglass and windows.

Glass has long been extolled for its usefulness, its beauty, and its transformative qualities. It fascinates the eye with pattern and texture. It reveals and obscures. It comes to life with the daily rhythms of natural light.

At ODL, we put the beauty and mystique of handcrafted glass at your door. Our enduring designs serve as a focal point for your home, a reflection of your style and sensibilities, and a bridge between you and the world outside your door.

With designs from classic to contemporary, old world to modern – and coordinating sidelights, transoms, and bathroom windows, too – we can help you add timeless beauty and enduring value to your home and to your life.

# Classic

Styles evolve and change, but these classic designs have enduring appeal. With roots that run deep in the tradition of American architecture, these designs evoke elegance, stability, and the permanence of home. Beautiful lines, sophisticated detailing, and deeply cut bevels create a broad appeal that blends well in a wide range of homes.

## Glass

Today's doors combine the beauty of leaded glass with the durability and efficiency of modern glass. All our glass is tempered for lasting strength, thermally sealed to save energy, and insulated to be air- and water-tight.

ODL Doorglass can be used in doors to meet Energy Star® criteria.

more about glass options in appendix A

## Old World

Graceful contours, deep bevels, and dark, matte patina coming lend a feel of antiquity to these doors and create a charming and inviting entryway to your home. These designs capture the feel of the old world, recalling the graciousness and rustic comfort of days past. When guests come to call, let our old world designs welcome them with a timeless ambiance.

## Caming

Caming – the metal banding that joins panels of glass – is a small detail with a big impact on the overall look of your entry. Choose coming to coordinate with your door hardware, outdoor fixtures, interior furnishings, or to suit your personal style.

see all our coming options in appendix A

## Craftsman

Simple designs inspired by nature are the hallmarks of the Craftsman style. These beautiful geometric designs cast intricate patterns of sunlight into the interior spaces of your home. Handcrafted glass honors the Craftsman reverence for fine materials. Patina or nickel finish caming blends beautifully with finishes inside and outside the home.

Decorative glass casts intricate patterns of sunlight, like paint on a canvas, upon the interior and exterior spaces of your home.

Contrasting textures create depth and let you bring in light without sacrificing privacy.

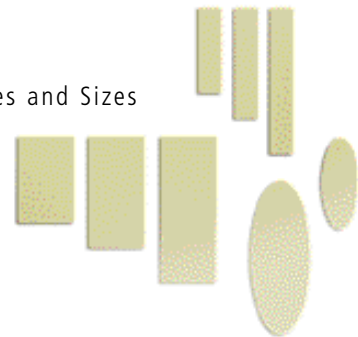

## Contemporary

Contemporary glass shares your flair for the sculptural. Beautiful lines, sweeping curves, and soft forms inspired by nature, gently bridge the threshold between the natural world and your interior spaces.

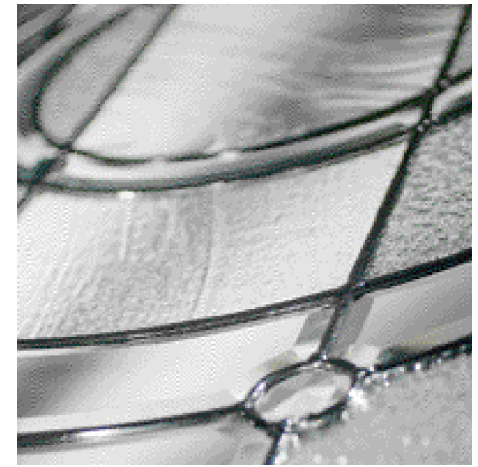

### Shapes and Sizes

Your door may be a rectangle, but your doorglass doesn't have to be. We design glass in sunbursts, ovals, arches – squares and rectangles, too.

Most designs come in several sizes from a small window to a full-view glass door. With so many shapes and sizes, the possibilities are endless.

more about shapes and sizes in appendix A, B, & C

## Modern

The clean, streamlined look of modernism inspires these bold designs. If you lean toward spare, polished, and sleek, then you're a modern soul and we can create an entry that speaks to your sense of style.

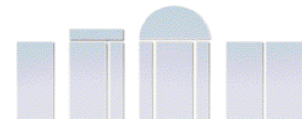

An eclectic type? These designs are a sure fit for an individualist.

Just like it? That's all that matters.

At ODL, we design doorglass that's as individual as you are.

## Configurations

It starts with a door and becomes an entry statement. Add a sidelight or two, a transom, or even a double door. There are dozens of ways to configure your entryway. The more glass you add, the more light you bring in. And the more impressive your entryway, both inside and outside the house.

see all our configurations in appendix A

## Bathroom Windows

You don't have to leave the beauty of architectural glass at your doorstep. Our decorative windows let you create private spaces of beauty in other places. An added layer of obscurity brings in natural light but blocks the view in – making these windows ideal for baths, bedrooms, or other areas where you seek natural light, but want privacy.

## Textures & Privacy

Textured glass adds dimension, depth, and contrast to our designs. We combine textures – from nearly transparent to softly sandblasted to heavily embossed – to provide just the right balance of light and privacy at your door. We give each design a privacy rating from 1 to 9 to help you choose the level of openness or obscurity you prefer.

see more glass textures and learn about privacy ratings in appendix A

## Integral Shade & Blind Doorglass

Integral shades and blinds allow you to control light and privacy with the touch of a finger. These treatments are sealed between tempered glass, so they require no dusting, have no exposed cords, and do not swing with the door.

## Decorative Windows

We offer energy-efficient and beautiful, decorative windows to match many of our doorglass designs.

## Clear Doorglass

We also offer standard doorglass in a variety of shapes and styles: in clear, low-E, or rain-textured glass; classic or prairie style grids; internal or external muntins; vented doorglass to bring in the breeze; or hurricane glass to withstand the heavy blows.

## All ODL Doorglass Features Safety Glass

ODL doorglass is sealed between tempered safety glass and insulated for air-tight, water-tight performance. Standard on all decorative and clear doorglass.

### Glass options available on select products:

#### Secure By Design®

180% more break resistant than tempered glass. Virtually impossible to break through. Energy efficient triple-glazed construction. Available on Impressions doorglass.

#### Low-E

Low-E Comfort E-2 Series is a high performance glass made with an invisible thin metallic coating that blocks heat flow. A proven energy saver, low-E glass reduces air conditioning costs by reducing solar transmissions in the summer. In winter, it reduces heat loss to the outside and allows solar energy to pass inside. Available as a clear doorglass option.

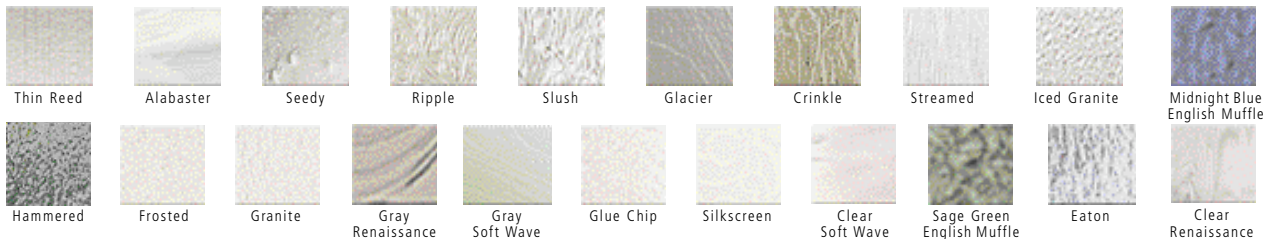

#### Hurricane Impact Doorglass

Meets DP±65 wind and missile impact code requirements. An attractive solution for installations in windborne debris regions. Available in select designs.

## Textures

Our designs use handcrafted glass in a variety of textures to create privacy while admitting natural light.

Slight bubbles, lines, and surface imperfections are all characteristics of glass. They are not to be considered as defects, and distinguish the light transmitted into your home.

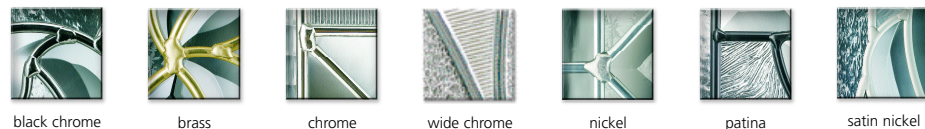

## Privacy Rating

Each doorglass design is assigned a privacy rating to help you choose the level of openness or obscurity that's right for you.

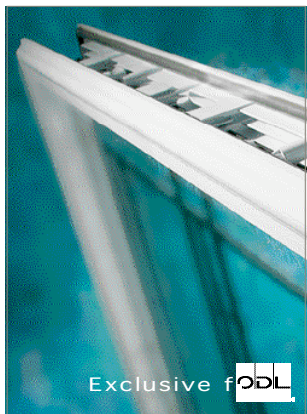

## Caming

Different caming metals let you coordinate with exterior fixtures, hardware, or interior motifs.

## Doorglass Frames

Revolutionizing doorglass frame technology. ODL offers a variety of frame options.

HP PRO FRAME  
MAINTENANCE  
SMARTFRAME™

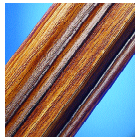

No screws or plugs.

Easy to paint or stain.

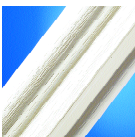

No squeeze out.

HP Pro™ Paint/Stain Ready  
Maintenance-Free Frame

Ready to stain or paint. Will not warp or split.  
Storm door safe. Will not yellow.  
(Available in white or Stainmate.)

HP FRAME  
MAINTENANCE  
HP Maintenance-Free Frame

Will not warp or split. Will not yellow.  
No need to paint. Storm door safe.

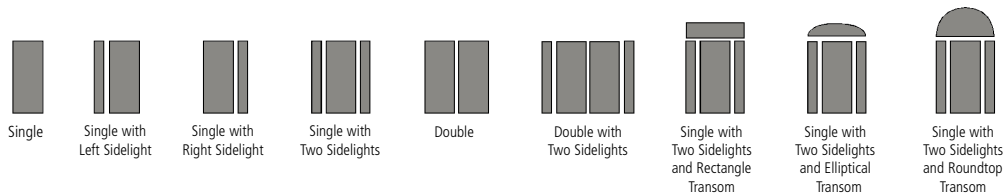

Hurricane Impact Frame

Sturdy aluminum construction.  
Maintenance-free powder coat finish.

U.S. Patent #5636486

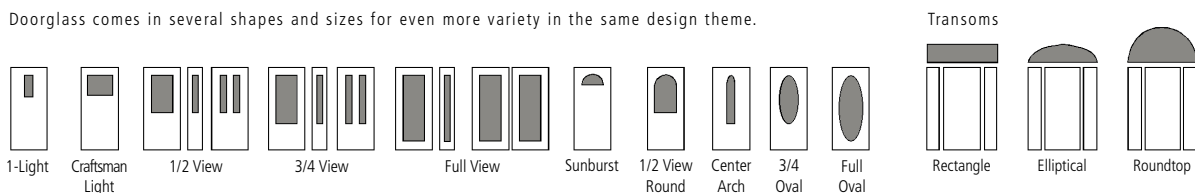

## Configurations

Doors with ODL Doorglass are available with coordinating sidelights, transoms, and double doors to create a variety of entry configurations.

## Shapes and Sizes

Doorglass comes in several shapes and sizes for even more variety in the same design theme.

## Warranty

ODL products are covered by separate limited warranties.

The warranty does not apply to damage from shipping, handling, installation, storage, environmental conditions, or unusual service conditions or usage.
