

Reflections

First impressions begin with an entrance.

First impressions begin with an entrance.

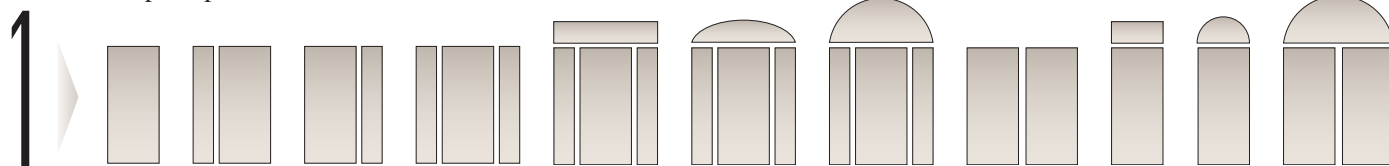

And *decorative doorlights* contain all the elements to make any entrance spectacular.

How do you design an entrance that reflects the way you live?

It's as easy as 1, 2, 3. Start with your personal taste in entrance styles.

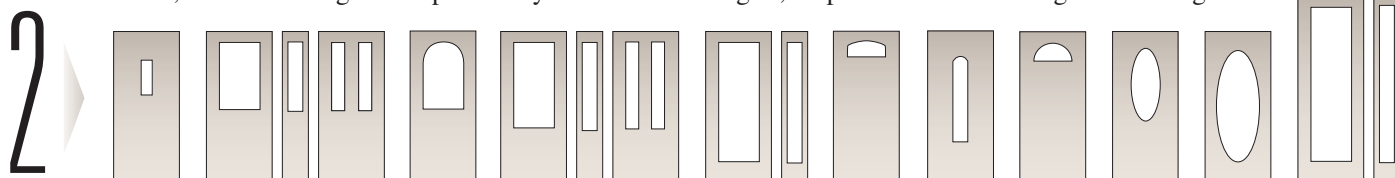

Entryway Configurations

Do you favor doors with sidelights and transoms?
Or perhaps a double door?

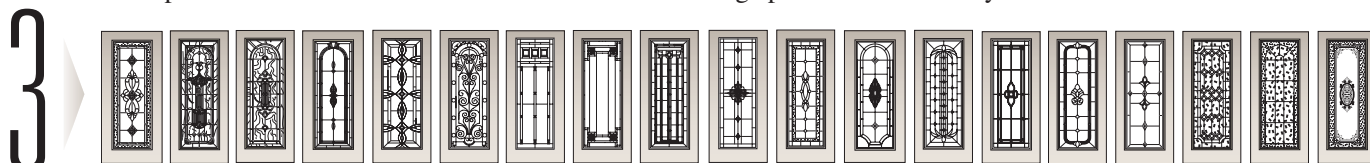

Decorative Glass Shapes and Sizes

Next, decide which glass shapes fit in your home. Rectangles, elliptical or ovals? Full glass or half glass?

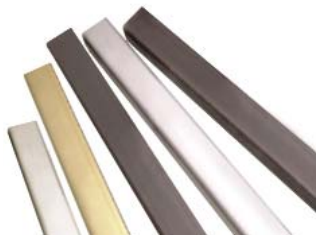

Glass Designs

Then decide which glass textures and came color reflect the way you live. You may choose designs containing renaissance glass for the elegant waves, or glue chip glass for more privacy. Do you prefer the traditional look of brass, the contemporary feel of platinum and satin nickel, the period charm of patina came or the new elegance of sensations which includes both brass and platinum came? With Reflections Select-A-Door™ design planner the choice is yours.

Caming

Satin Nickel is a nickel plated caming featured on pages 9 and 12.

Sensations is a brass and platinum caming featured on pages 4 and 5.
